## Boston Learning (East) NEWSLETTER

2007 /2008 Enrichment Courses

Boston Learning(East) is now offering design in curriculum art classes in primary schools.

At secondary schools and ITE colleges, we have conducted innovative product workshops such as building a fun bicycle, shopping trolley for elderly, making school equipment, designing of household items, etc.

# LIST OF WORKSHOPS

## **Product Design Workshop:**

Students will go through the process of developing the idea and designing the product. Photoshop will be used as a tool to illustrate.

## **Bicycle Restoration Workshop:**

Old bicycles are taken apart, repaired and reassembled.

## **Motorbike Workshop:**

Old motorbikes are taken apart and reassembled. Students are taught how the motorbike works.

## **Dinghy Workshop:**

Students build a small rowing boat. Basic understanding of wood and some advanced woodwork skills will be taught.

## **Metal Sculpture Workshop:**

Students will be taught how to work with metal and produce a metal sculpture.

## **Wood Relief Workshop:**

Students will be taught how to work with wood and produce a piece of artwork.

## **Cement Sculpture Workshop:**

Students will be taught how to work with cement and produce a sculpture.

## **Mobile Stage Workshop:**

Students will be taught how to design and construct a mobile stage.

## **House Building Workshop:**

Students will be taught how to construct a scale house or shelter.

## **Photoshop Workshop:**

The students will achieve basic understanding of this powerful software and produce a collage/poster.

## **Photoshop Workshop (Advanced):**

We go deeper into Photoshop's many functions and learn how to perform advanced tasks in Photoshop.

## **Boston Learning (east):**

Has a large number of art enrichment courses; please visit our website: [www.bostonlearning.com](http://www.bostonlearning.com) for further information on these.
